## EXPERIENCE

### **M&M Hardware and Tech — *Supply Management***

Within M&M, I worked on keeping the store's stock in check as well as assisting any customer in finding what they needed. Here I worked on basic communication skills as well as organization and work ethics.

### **Manor Delicatessen — *Customer Assistant***

In Manor Delicatessen, I worked to help the customers in quick and efficient ways. With this I was able to grow my peoples skills as well as learn how to juggle several different task presented to me at once.

### **Food And Finance High School — *Teacher's Assistant***

During my High School years, I had the honor in working with the teachers and helping them with whatever they needed help with. This boiled down to technical support among over tasks.

## EDUCATION

### **Queens College — *BA (2021)***

Major: Computer Science / Minor: Interactive Design

- Knowledge in C++
- Knowledge in I.T.

I have a history of fixing and managing computers, smartphones, tablets, and other tech devices due to a background of tech savvy family members.
